

COMPANY OVERVIEW

INTDEV INTERNET TECHNOLOGIES

WHO WE ARE

Intdev is a top South African ICT solutions provider that offers sustainable value through leading technologies. We strategically collaborate with customers, providing insights and aligning technology with business strategies. Our agility, industry knowledge, proven delivery, and strong performance make us a leading partner in the ICT sector.

Intdev solutions and services are delivered across three focus areas:

TECHNOLOGY SOLUTIONS

The organisation designs and builds technology facilities and solutions. We implement high-performance, purpose-built technology systems that are secure and that equip you to compute, store and connect successfully. We enable your business through the application-enabled infrastructure's automation, orchestration, and integration.

BUSINESS APPLICATIONS

Our enterprise application services deliver business insight and promote transparency, helping you better understand your business' performance. We help you to structure, manage, view and use your information to make informed, systematic decisions based on real-time data. Automating business processes and integrating applications and systems improve your productivity and enable quick and easy collaboration.

MANAGED SERVICES

We help you to manage your business using 24x7 ICT services that enable you to provide a fast, effective I.T. experience to your staff and customers. Delivery and support flexibility means that our I.T. services can flex or shrink as your requirements change. We provide everything as a service with a compelling cloud offering that gives you fit-for-purpose solutions. Our service catalogue spans all technical disciplines and functional areas of your business and accelerates your time to value by delivering precisely on your business needs.

OUR MISSION

We take **PRIDE** in our role as Industry Innovators in the I.T. Industry, delivering **WORLD-CLASS TECHNOLOGIES AND SERVICES** to our customers.

PRIDE

By focusing on and recognising excellence, we can motivate our staff to go the extra mile, take pride in everything we do, and continue to deliver exceptional service to our customers.

WORLD-CLASS TECHNOLOGIES AND SERVICES

By building a Supportive company culture that manages our customer's expectations, ensuring that we consistently deliver a world-class customer experience.

- Being an equal opportunities employer, focusing on our staff reaching their full potential through the structured implementation of relevant training and development programs.
- Taking pride in our role as industry innovators, offering our customers "best-in-class" service-based solutions.
- Committed to driving continuous innovation and improvement in our supply chain management, services, and solutions.
- To actively explore new growth opportunities.
- Strive to be recognised as a provider of superior products and services.
- Aim to expand our product and service offerings to promote growth and penetrate new markets.
- Continue to contribute significantly to our social and economic environments.

OUR VISION

TECHNOLOGY PARTNER

To help organisations implement and optimise their technical systems.
Designing and Building bespoke customer solutions.

To be the **TECHNOLOGY PARTNER OF CHOICE** for
CUSTOMERS, PARTNERS, VENDORS AND EMPLOYEES.

RETAIN

Our Staff and Customers are at the heart of our organisation and form the core of our business. We ensure the retention of our customers and key employees by continually implementing and monitoring our strategic retention programs and initiatives.

CORE VALUES

INTEGRITY

We do the right thing, regardless of the consequences. We value openness and honesty.

ACCOUNTABILITY

We set high expectations for ourselves, taking full accountability for the quality of our services.

EFFICIENCY

Managing our clients' IT environments efficiently and effectively, creating additional value.

EXEMPLARY SERVICE

Regardless of size or scope, we strive to provide a service that consistently exceeds customer expectations. We aim to excite and delight our customers through our interactions with them.

ENTREPRENEURSHIP

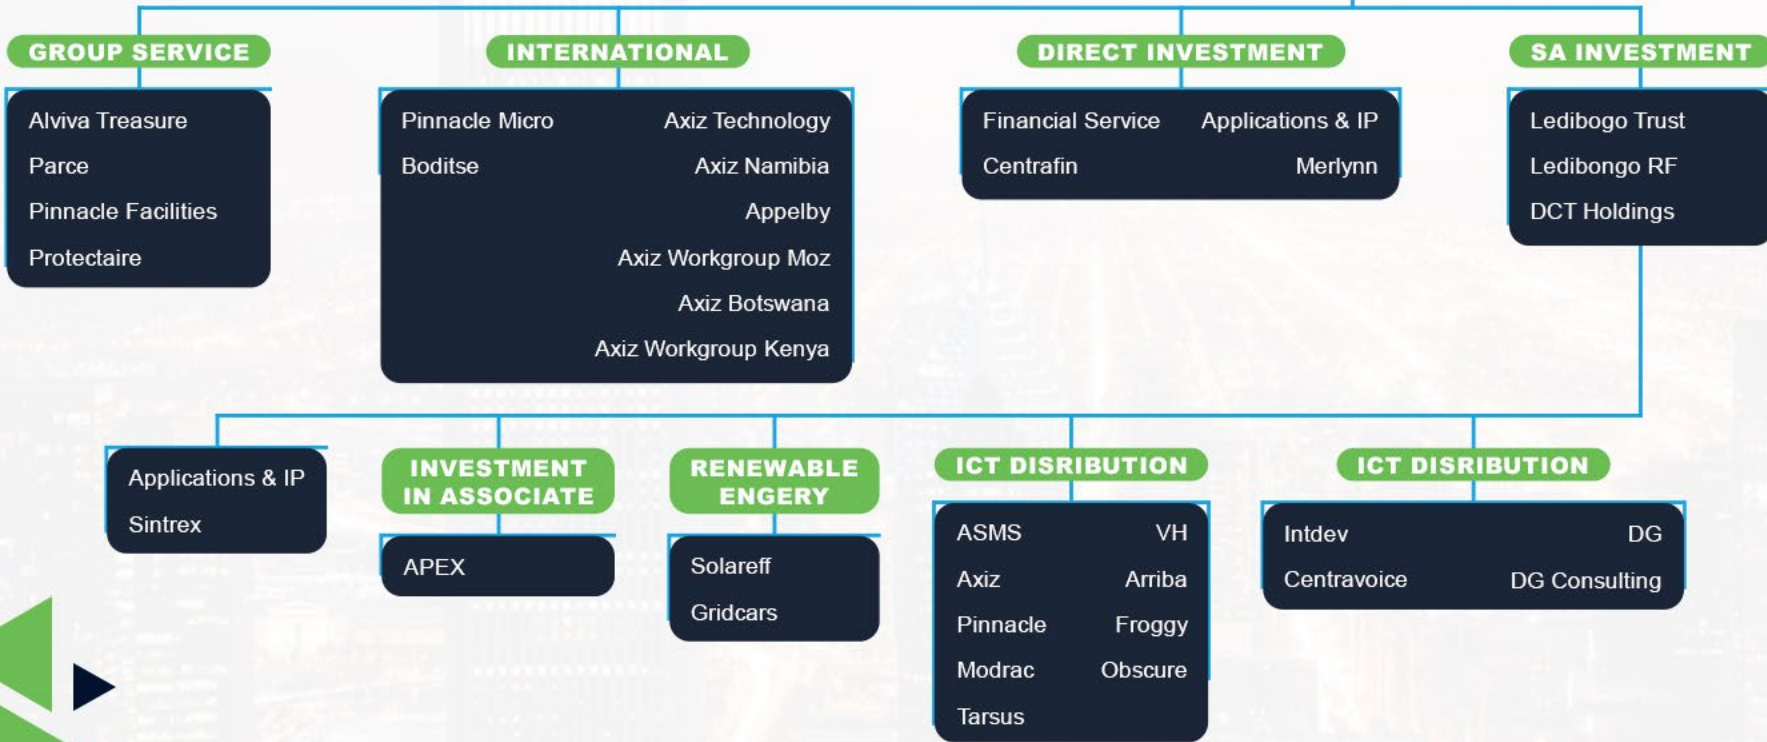

We encourage non-traditional thinking and calculated risk-taking, enabling us to learn as individuals and as a business.

RELATIONSHIPS

The strength of our dealings with our clients is reflected in the lasting relationships that we build.

COMPLEMENTARY SERVICES

MANAGED ENVIRONMENT - SERVERS | NETWORK | WORKSTATIONS - 24/7 HELPDESK & SUPPORT

CORE SERVICE OFFERINGS

HOSTING

Key Benefits:

- Performance-Optimised All-Flash Storage
- Tailored Expert Support
- Built-In Disaster Recovery & High Availability
- Multi-Layered Security Defence
- Seamless Private-Public Cloud Integration

SECURITY

Offerings:

- Workforce Security
- SALT API Security
- Vulnerability Assessment
- Penetration Testing
- Next-gen Threat Management
- Email Hygiene
- BACK UP & Data Protection
- SocRadar: Threat Intelligence
- Service Desk/Network Monitoring
- SOC/SIEM

LICENSING

Key Benefits:

- Express Support
- License Optimisation
- Regular Usage Assessment
- 24/7 Help Desk
- Scalability Planning
- Cost Control Measures

Microsoft 365 and Azure

CONNECTIVITY

Offerings:

- Internet Connectivity
- Advanced Networking
- Wide Area Networking

Partnered with SAs leading ISPs

- **Vodacom:**
 - National Partner
 - Express support lane
 - VPP
- MTN
- MetroFibre
- Link-Up
- Fortinet SD wan

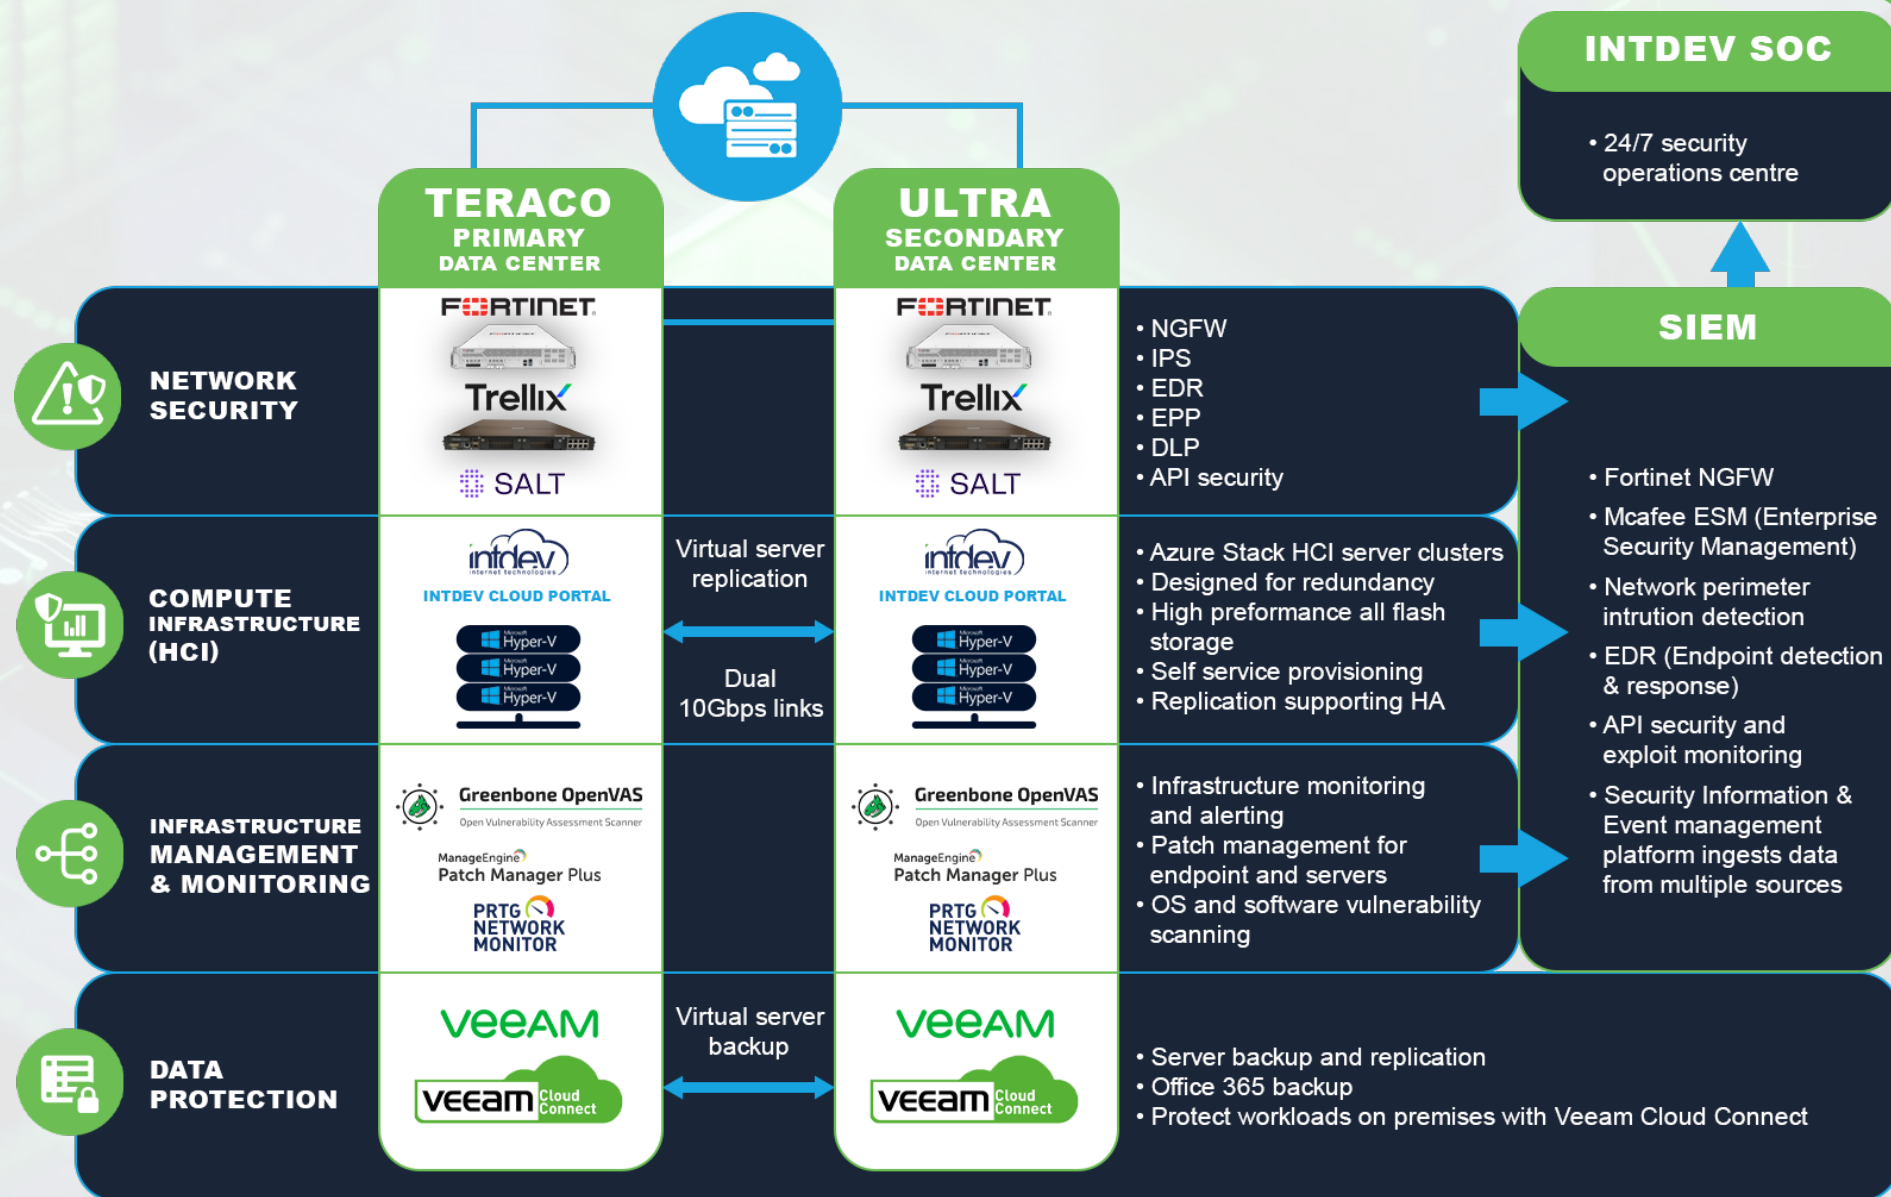

Key Benefits:

- Performance-Optimised All-Flash Storage
- Tailored Expert Support
- Built-In Disaster Recovery & High Availability
- Multi-Layered Security Defence
- Seamless Private-Public Cloud Integration

WHY CHOOSE US?

- ISO 27001:2022 Certified
- Dual Geo-Resilient Data Centres
- On-Demand Hyper-Converged Infrastructure
- Transparent Fixed Pricing
- Fully Managed Hybrid Cloud
- Environment
- 24/7 SOC & SIEM Protection
- Rapid Recovery Backups

HOSTING ENVIRONMENT

OVER R100 MILLION INFRASTRUCTURE INVESTMENT

Key Benefits:

- Holistic protection (perimeter, internal, data, behavioural)
- 24/7 proactive defence and SOC-driven monitoring
- AI-automation reduces human error & response time
- Business continuity via backups, monitoring, and support
- Compliance adherence and audit readiness
- All tailored to your use case and needs

Compliance & Governance

- ISO 27001:2022 certification
- POPIA, GDPR alignment
- Policy & DLP integration
- Continuous risk assessment via AI and pen testing

MANAGED SECURITY PORTFOLIO

Intdev delivers end-to-end cybersecurity solutions through a certified Security Operations Centre (SOC), offering 24/7 threat monitoring, detection, and response. Backed by ISO27001:2022 compliance, our multi-layered, AI-driven approach protects your entire IT environment, ensuring security, resilience, and business continuity.

Intrusion Prevention System (IPS)

- ✓ Detects and blocks advanced malware and stealthy attacks
- ✓ Uses behaviour analysis and threat emulation
- ✓ Goes beyond traditional signature-based detection

Automated Vulnerability Management

- ✓ Proactively identifies and assesses system weaknesses
- ✓ Prioritises and remediates vulnerabilities
- ✓ Reduces risk and improves security resilience

Penetration Testing

- ✓ Simulates real-world cyberattacks
- ✓ Identifies exploitable vulnerabilities
- ✓ Helps close security gaps before attackers can

Endpoint Detection & Response (EDR)

- ✓ Continuously monitors all endpoints
- ✓ Provides context-rich alerts for faster investigation
- ✓ Helps manage large volumes of threats effectively

Enterprise Security Manager (ESM)

- ✓ Centralises internal and external threat intelligence
- ✓ Correlates system data for real-time insights
- ✓ Supports quick, risk-based security decisions

Security Operations Centre as a Service (SOCaaS)

- ✓ Fully managed 24/7 threat detection and response
- ✓ Includes advanced monitoring and incident handling
- ✓ Delivers regular reports and actionable insights

SALT API Security

- ✓ Protects APIs across build, deploy, and runtime
- ✓ Uses AI/ML analysis and API data lake
- ✓ Stops attackers early and improves API posture
